PROFESSIONAL SUMMARY

Motivated and versatile B.Tech CSE undergraduate (CGPA 8.2/10, Batch 2027) with a strong foundation in technology, analytics, and communication. Experienced in data collection, project execution, community engagement, and web development. Demonstrated ability to deliver accurate, high-quality work in fast-paced environments while managing multiple priorities. Selected for Amazon ML Summer School 2025, reflecting consistent academic excellence and a growth mindset. Seeking opportunities that combine analytical thinking, creativity, and execution to drive meaningful impact.

KEY SKILLS

Technical	Python, JavaScript (ES6+), HTML5/CSS3, ReactJS, Django, Git, GitHub, VSCode
Analytics	Data tracking, reporting, KPI monitoring, Excel, Google Sheets
Communication	Written & verbal English, stakeholder management, documentation, presentation
Creative	Content ideation, storytelling, UX thinking, brand awareness
Core Strengths	Attention to detail, multi-tasking, problem-solving, team collaboration, adaptability
QA / Testing	Manual Testing, Bug Reporting, SDLC, OOP, DSA, Algorithms

EXPERIENCE & LEADERSHIP

Field Data Collection Associate | Indian Oil – Data Collection Project | 2025 | India

- Conducted structured data collection, documentation, and reporting across multiple pipelines with high accuracy.
- Performed systematic quality checks to ensure data integrity, maintaining organised records and timelines.
- Collaborated with team members to meet daily targets, demonstrating reliability and attention to detail.

Volunteer – Community Engagement | Muskurahat Foundation – NGO | Ongoing | India

- Organised and executed community engagement programs, crafting narratives that drove awareness and participation.
- Coordinated cross-functional tasks and maintained clear documentation and communication across stakeholders.

Active Member | National Service Scheme (NSS) | Ongoing | India

- Collaborated with diverse teams on social development programs, strengthening interpersonal and leadership skills.
- Contributed to awareness campaigns, building hands-on outreach and communication experience.

PROJECTS

Bhasha Setu – Language Learning Web Application *HTML5 | CSS3 | JavaScript*

- Built a responsive, mobile-first language-learning platform with intuitive UI and cross-browser compatibility.
- Implemented modular component structures following front-end development best practices.

Smart Traffic Management System *System Design | JavaScript | Architecture*

- Designed a real-time traffic monitoring system with scalable architecture and data flow modelling.
- Demonstrated end-to-end analytical thinking: problem identification → design → solution modelling.

Analytics & Reporting Dashboard Concept *Python | Excel | JavaScript*

- Built a KPI tracking framework with automation logic to reduce manual reporting effort and improve accuracy.

EDUCATION

B.Tech – Computer Science Engineering | 4th Year, 7th Semester | Expected 2027

CGPA: 8.2/10

ACHIEVEMENTS & CONTINUOUS LEARNING

- Selected for Amazon ML Summer School 2025 — recognised for ML fundamentals and algorithmic aptitude.
- Maintained a consistent CGPA of 8.2/10 across the B.Tech CSE programme.
- Actively pursuing Machine Learning, DSA, and Data Analytics through self-directed learning.
- Completed multiple end-to-end projects spanning web development, system design, and data analytics.
- Regular contributor to skill enhancement via hands-on projects, online resources, and open-source exploration.

AREAS OF INTEREST

Software Engineering | Data Analytics & Reporting | Machine Learning & AI | Web Technologies | Brand & Content Strategy | QA & Testing
